

Product Description

LEDirect 6.5W MR16 is designed and uses the latest LED technology. Its innovative thermal solution and proprietary driving circuit has made this lamp one of the leading MR16 lamps in the industry. LEDirect 6.5W MR16 is capable of providing luminance equivalent to a 35 Watt incandescent while using only 18% of power consumption.

Specifically designed for its optic delivery at the highest level of light and quality, this lamp can be valued by the most demanding lighting professionals. This lamp is ideal for high profile lighting applications, such as museums, jewelry stores, boutiques, restaurants, etc.

Replace your existing MR16 with LEDirect 6.5W MR16 today and experience benefits such as a lower electric bill, lower maintenance costs, and more durability. This lamp is also more beneficial to the environment as it has reduced levels of CO2 emission and does not contain UV or IR.

Benefits & Features

1. High Power LED with CREE latest technology
2. Dimmability depends on transformer
3. Low Lumen Depreciation
L70 >25,000 hrs
4. Low Power Consumption
5. High Color Rendering Index (>80)
6. 25,000 hrs Rated Lifetime
7. 3 Year Warranty
8. CE, FCC, cUL, and UL Pending
9. RoHS Compliant

Energy & Utility Savings

	Incandescent	6.5W MR16
Power Consumption	35W	6.5W
Energy Saving	--	82%
Utility Saving*	--	\$78.38

* Based on estimated lifetime of 25,000 hrs & 11¢ per kwh Utility rate

Order Codes

CCT	Item #	Order Codes	Case Qty	Availability
2700K	5582	LHO-6.5MR16/FL/2700K	10	In Stock

Specifications

Base	GU5.3
CCT	2700K
CRI	> 80
Beam Angle	30 deg
Lumen Output (TYP)	280Lm
Power Consumption	6.5W
Voltage	12V AC/DC
Power Factor	>0.72

Packaging Qty - 1: 10: 40
