### HPL+ Compact Filament Lamps

USHIO's high performance lamp HPL+, has been redesigned to be the most powerful HPL ever. Its ultra-compact filament geometry now improves the optical efficiency of your ETC Source Four™ fixtures to produce up to 20% more fixture lumens. That's up to 20% more light from the same fixture as compared to the old lamp design.

FEATURES & BENEFITS

SPECIFICATIONS

PHOTOS

#### PRODUCT FEATURES & BENEFITS

- New ceramic heat sink base maintains its resistance to electric conductivity over the life of the lamp
- Unique compact four & six filament design for more efficient light collection
- Standard and Long Life versions provide increased light output
- USHIO has the largest selection of voltages and wattages
- High efficiency (28.5 lumens per watt average)
- Increased fixture light output of up to 20%

#### OTHER RELATED PRODUCTS:

- None
